

FACT SHEET

ABOUT US

Since 1978, Alliant Management Services (AMS) has performed at the forefront of community healthcare, sharing affordable, innovative support systems in virtually all areas of hospital management. Hospitals today are challenged to maintain quality of care, offer state-of-the-art technology and provide vital services despite rising costs and decreasing reimbursement.

AMS is an experienced hospital management company with the expertise and resources required to anticipate these challenges and turn them into opportunities for managed hospitals. We are dedicated to quality healthcare. Our long-standing relationship with partner hospitals and our history of success clearly demonstrate that the benefits of professional management and access to a vast network of resources can be enjoyed without sacrificing autonomy. AMS currently manages 18 hospitals in Kentucky, Illinois, Indiana and North Carolina.

PHILOSOPHY AND STRATEGY

Our goal at Alliant Management Services is to work with the board of trustees of a hospital or health system to identify opportunities to streamline operations, thus creating efficiencies and a more profitable environment without compromising the level of care provided to the community. With quality care as our first priority, we offer our specialized skills and resources to help our partners function and be recognized as customer-driven health-care providers that are uniquely responsive to the needs of patients, physicians, employees and the community.

At AMS, our style is not based on a formula; it is based on our belief and conviction that every hospital is unique and that no two partnerships can be exactly alike. Our approach to hospital management is to match individualized services to the needs of each partner in order to maintain the highest quality of patient care and strengthen the hospital's position in the marketplace.

TAILORED MANAGEMENT

Through our historical relationship with Norton Healthcare and our continuing relationship with Blue & Co., LLC, Alliant Management Services brings an unmatched combination of resources to the table. AMS offers its member system hospitals comprehensive operational, financial, clinical, and educational resources. Our expertise and extensive network of experienced professionals allows us to customize each hospital's management package based on the specific needs of the organization.
